About HIMSS

HIMSS (Healthcare Information and Management Systems Society) is the healthcare industry's membership organization exclusively focused on providing leadership for the optimal use of healthcare information technology and management systems for the betterment of human health. Founded in 1961, HIMSS represents more than 17,000 individual members and over 300 member corporations that employ more than 1 million people. HIMSS frames and leads healthcare public policy and industry practices through educational and professional development initiatives designed to promote information and management systems' contributions to ensuring quality patient care.
